

Intelligent Motor Controls: Getting the most from your starters & MCCs

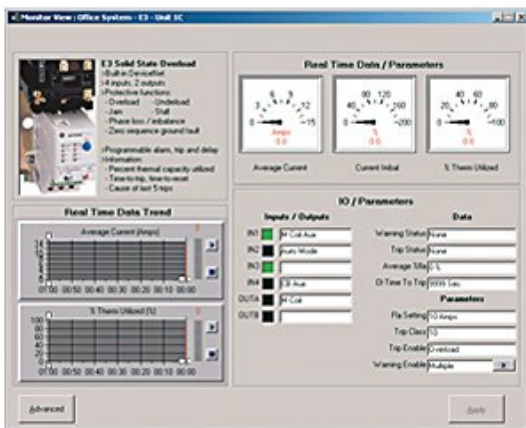

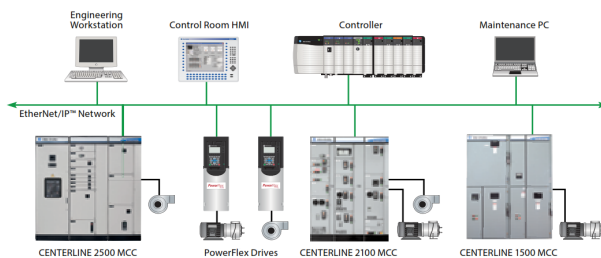

Date: 2/21
Time: 11a-1p

Learn the basics of establishing a Connected Enterprise beginning with Intelligent Motor Control and Monitoring of Motor starters utilizing 193-ETN Ethernet modules and see how much information can be gained in it and in MCCs.

Connect Your Entire Enterprise

EtherNet/IP is an established, broadly-adopted network that helps simplify and enhance machine design.

- Low cost, high performance and easy to use compared to a multi-network architecture
- Easily integrate any CENTERLINE MCC, PowerFlex drives, I/O, smart actuators and any other EtherNet/IP enabled device
- EtherNet/IP connectivity supports linear, star and ring topologies

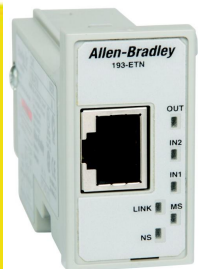

To Register

Where: CED-Lincoln
2000 Judson Street
Lincoln, NE 68521

When: Tuesday Feb. 21
11am-1pm Lunch Provided

Cost: \$195 per 2 attendees
Keep the 193-ETN (\$364 list price)
