## Rockwell Automation Safety on Tour Safety & Standards Seminar

CED Lincoln | April 13 | 9:00 AM - 4:00 PM | Cost: FREE

A proper and clear understanding of machine safety can improve machine performance and mitigate risks. With nearly 40 years of experience, join Rockwell Automation's North American Safety Manager David Rasmussen as he discusses how to provide a path forward to improving both machine safety and overall performance.

### Topics include:

- Reviewing the latest versions of the ANSI and ISO safety standards
- Risk assessment methodology
- General guidelines for E-stops and machine guarding
- An overview of functional safety standards
- Evaluating machine safety using practical examples
- Available materials and software to assist in safety implementation
- A Q&A session with David Rasmussen

**Lunch will be provided**
