# TRAINING

## Industrial Security – From the Plant Floor to the Enterprise

KP Springdale | 1102 Sterwin Street | Springdale, AR

March 6 | 8:30 AM - 3:30 PM

Presented by Keathley Patterson and our key partners, this seminar will focus on security recommendations and key considerations to help you design and deploy a more robust and secure plant floor. Topics to be covered include:

- Defense-in-depth holistic security approach
- Creating a control system network resistant to attack
- Ensuring entities participating in the network are only those the system owner trusts
- Protecting your intellectual property
- Detecting and preventing attacks on the control system and managing security policy
